Key features

Suitable time for infrastructure

The government's push on infrastructure development across the country signals a potential for growth in the years ahead. Favourable macroeconomic conditions and the inclination to speed up the completion of projects are also drivers for companies in this sector.

Where are the opportunities?

From construction, oil & gas, power to defence, railways, cement and allied businesses, there is potential to benefit from the growing demand over the long term, with an aim to create wealth for investors along the way.

Picking the right companies

With indepth research and processes, our fund managers handpick infrastructure companies that are at attractive valuations and have the potential to deliver long-term growth.

Invesco India Infrastructure Fund

Invesco India Infrastructure Fund is structured to benefit from the ensuing opportunities in the infrastructure space. It thus presents a chance for long-term wealth creation by investing in infrastructure companies that demonstrate high-growth potential over medium to long term.
