Invesco India Nifty G-sec Jul 2027 Index Fund

(An open-ended Target Maturity Index Fund tracking Nifty G-sec Jul 2027 Index. A relatively high interest rate risk and relatively low credit risk)

Investment Objective

To generate returns which correspond (before fees and expenses) to the performance of Nifty G-sec Jul 2027 Index, subject to tracking difference.

However, there is no assurance that the investment objective of the Scheme will be achieved.

Asset Allocation Pattern of the Scheme

Under normal circumstances, the asset allocation of the Scheme would be as follows:

Type of Instruments	Normal Allocation (% of net assets)		Risk Profile
	Minimum	Maximum	High / Medium / Low
Government securities, TREPS on Government securities/Treasury Bills	95	100	Low to medium
Money Market Instruments	0	5	Low to medium

Pursuant to SEBI Circular no. SEBI/HO/IMD/DOF2/P/CIR/2022/69 dated May 23, 2022, replication of the Index by the Scheme shall be as follows:

- The Scheme shall replicate the underlying debt index.
- The Duration of the portfolio of the Scheme shall have a permissible deviation of either +/- 3 months or +/- 10% of Macaulay duration, whichever is higher. However, at no point of time, the residual maturity of any security forming part of the portfolio shall be beyond the target maturity date of the Scheme.

The Scheme may invest upto 5% of its net assets in the units of other schemes of Invesco Mutual Fund or of any other mutual fund subject to overall limit of 5% of the Net Asset Value of the Fund.

The cumulative gross exposure through government securities, money market instruments, repos, mutual fund schemes, other permitted securities/assets and such other securities/assets as may be permitted by the SEBI from time to time, subject to regulatory approvals, if any, should not exceed 100% of the net assets of the scheme.

Cash and cash equivalents with residual maturity of less than 91 days may be treated as not creating any exposure. SEBI vide letter dated November 3, 2021 has clarified that Cash Equivalent shall consist of Government Securities, T-Bills and Repo on Government Securities.

During normal circumstances, the Scheme's exposure to money market instruments will be in line with the asset allocation table. However, in case of maturity of security/securities in the Scheme portfolio, the reinvestment will be in line with the index methodology.

The Scheme may enter into repos/reverse repos as may be permitted by SEBI / RBI and such investments will be restricted upto 5% of the net assets of the Scheme. From time to time, the Scheme may hold cash. A part of the net assets may be invested in the TREPS, repo or in an alternative investment as may be provided by RBI to meet the liquidity requirements.

Pending deployment of the funds in securities in terms of investment objective of the Scheme, the AMC may park the funds of the Scheme in short term deposits of the scheduled commercial banks, subject to the guidelines issued by SEBI vide its circular dated April 16, 2007, as may be amended from time to time.

The Scheme will not invest in following:

- Fixed Income Derivatives
- Securitized debt
- Debt instruments with special features (AT1 and AT2 bonds)
- Debt instruments having structured obligations / credit enhancement
- Stock lending and borrowing
- Overseas Securities
- REITs and InvITs
- Repo in Corporate Debt Securities
- Credit Default Swaps

As the index includes securities that shall mature during the six month period ending on the final maturity date of the index, any proceeds from the security redemption prior to the final maturity date of the index shall be re-invested using the following waterfall approach:

- The proceeds from security redemption will be reinvested in the longest maturity outstanding security issued by the same issuer (G-sec/T-Bill in case of government securities) and maturing on or just before the index maturity date with the same weightage.
- In case a replacement in the form of outstanding security of the same issuer cannot be found for reinvestment then the proceeds from such redemption shall be reinvested in the remaining portfolio on the same date in the proportion of the existing weights.
- In case due to any reason, it is not possible to meet any norms as prescribed by SEBI vide circular no. SEBI/HO/IMD/DOF2/P/CIR/2022/69 dated May 23, 2022, then the proceeds from such redemption shall be reinvested in a T-Bill maturing on or just before the index maturity date
- If the last outstanding security (including T-Bill) in the index matures before the final index maturity date, all redemption proceeds shall be re-invested in The Clearing Corporation of India Ltd.'s (CCIL) TREPS overnight rate tracked by Nifty 1D Rate Index for any subsequent days till the maturity of the index.

Change in Asset Allocation

The Scheme is a passively managed Scheme and accordingly in line with SEBI circular no. SEBI/HO/IMD/DOF2/P/CIR/2022/69 dated May 23, 2022 the Scheme shall replicate the constituents of Index with the permissible deviation of either +/- 3 months or +/- 10% of Macaulay duration, whichever is higher. However, at no point of time, the residual maturity of any security forming part of the portfolio shall be beyond the target maturity date of the Scheme. Post any transactions undertaken in the Scheme portfolio, in order to meet the redemption and subscription obligations, it shall be ensured that replication of the portfolio with the index is maintained at all points of time, subject to permissible deviations.

Rebalancing due to Short Term Defensive Consideration:

Due to market conditions, the AMC may invest beyond the range set out in the asset allocation. Such deviations shall normally be for a short term and defensive considerations as per SEBI Circular no. SEBI/HO/IMD/DOF2/P/CIR/P/2021/024 dated March 4, 2021 and the fund manager will rebalance the portfolio within 7 calendar days from the date of deviation.

Investment Strategy of the Scheme

The Scheme is a Target Maturity Debt Index Fund and will be passively managed. The Scheme seeks to track the performance of Nifty G-sec Jul 2027 Index in line with the norms prescribed by SEBI circular dated May 23, 2022. The Scheme will follow Buy & Hold investment strategy. During normal circumstances, the allocation to money market instruments will be in line with defined asset allocation pattern. However, in case of maturity of securities in the Scheme portfolio, the reinvestment will be in line with the index methodology.

Risk Profile of the Scheme

Mutual Fund Units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment. Scheme specific Risk Factors are summarized below:

Passive Investments

The Scheme is passively managed Scheme. The Scheme's performance may be affected by a general decline in the Indian markets relating to its underlying Index. The Scheme invests in securities which are constituents of its underlying Index regardless of its investment merit, research, without taking a view of the market and without adopting any defensive measures. The AMC does not attempt to individually select securities or take defensive positions in declining markets.

Risks associated with investing in Fixed Income & Money Market Instruments:

In addition to the factors that affect value of securities, the NAV of the Units of the debt schemes will fluctuate with the movement in the broader fixed income market and may be influenced by factors influencing such markets in general including but not limited to economic conditions, changes in interest rates, price and volume volatility in fixed income markets, changes in tax laws, political, economic or other developments. Further, the investments made by the debt schemes will also be affected by interest rate / price risk, reinvestment risk and settlement risk.

Tracking Error and Tracking Difference Risk:

"Tracking Error" is defined as the annualized standard deviation of the difference in daily returns between the underlying Index and NAV of Scheme.

"Tracking Difference" is defined as the annualized difference of daily returns between the index and the NAV of Scheme.

The Fund Manager may not be able to invest the entire corpus of the Scheme in securities exactly in the same proportion as in the underlying Index due to certain factors such as rounding off, fees and expenses of the Scheme, changes to the underlying Index and regulatory policies which may affect AMC's ability to achieve close correlation with the Underlying Index. The Scheme's returns may therefore deviate from those of its Underlying Index.

Risk Factor associated with investing in Securities Segment and Tri-party Repo trade settlement:

Clearing Corporation of India Ltd. ('CCIL') is providing clearing and settlement services, for Triparty Repo trades in Government Securities, under its Securities Segment. CCIL would act as a Central Counterparty to all the borrow and lend Triparty Repo trades received by it for settlement. CCIL would also be performing the role responsibilities of Triparty Repo Agent, in terms of Repurchase transactions (Repo) (Reserve Bank) Directions, 2018 as amended from time to time. CCIL would settle the Triparty Repo trades, in terms of its Securities Segment Regulations.

The funds settlement of members is achieved by multilateral netting of the funds position in Triparty Repo with the funds position in Outright and Market Repo and settling in the books of RBI for members who maintain an RBI Current Account. In respect of other members, funds settlement is achieved in the books of Settlement Bank. Securities settlement for Triparty Repo trades shall be achieved in the Gilt Account of the Member maintained with CCIL. Securities obligation for outright and market repo trades shall be settled in the SGL / CSGL account of the Member with RBI.

Invesco Mutual Fund is a member of securities segment and Tri-party Repo trade settlement of the CCIL. Since all transactions of the Fund in government securities and in Tri-party Repo trades are settled centrally through the infrastructure and settlement systems provided by CCIL, it reduces the settlement and counterparty risks considerably for transactions in the said segments.

To mitigate the potential losses arising in case any member defaults in settling the transactions routed through CCIL, CCIL maintains a Default Fund. CCIL shall maintain two separate Default Funds in respect of its securities segment, one to meet the losses arising out of any default by its members from outright and repo trades and other for meeting losses arising out of any default by its members from Triparty Repo trades.

In case any clearing member fails to honor his settlement obligations, the Default Fund is utilized to complete the settlement applying the Default Waterfall Sequence. As per the said waterfall mechanism, after the defaulter's margins and defaulter's contribution to default fund have been appropriated, CCIL's contribution is used to meet the losses. Post utilization of CCIL's contribution, if there is still a loss to be met, then contribution of non-defaulting members to Default Fund is utilized to meet the said loss.

The Scheme is subject to the risk of losing initial margin and contribution to Default Fund in the event of failure of any settlement obligation. Further the Scheme's contribution is allowed to be used to meet the residual loss in case of default by the other clearing member (the defaulting member).

Further, CCIL periodically prescribes a list of securities eligible for contribution as collaterals by members. Presently, all Central Government Securities and Treasury Bills are accepted as collaterals by CCIL. The above risk factor may undergo a change in case the CCIL notifies securities other than Government of India Securities as eligible for contributions as collateral.

Risks associated with segregated portfolio:

- Investor holding units of segregated portfolio may not be able to liquidate their holding till the time recovery of money from the issuer.
- Security(ies) held in segregated portfolio may not realize any value.
- Listing of units of segregated portfolio in recognized stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further trading price of units on the stock market may be significantly lower than the prevailing NAV.

Risk Mitigation Strategies:

Type of Risk	Measures to mitigate risk
Volatility Risk	The Scheme is a passively managed scheme and hence volatility risk will be lesser as compared to actively managed schemes.
Interest Rate Risk	The Scheme is a passively managed scheme, is expected to follow a Buy and Hold investment strategy in a passive manner. All investments are within the maturity date of the Scheme and the Underlying Index. This should help mitigate the interest rate risk.
Liquidity Risk	The Scheme will invest in Government securities. In general, Government securities have a higher level of secondary market liquidity. Thus, the Scheme does not envisage liquidity risk.
Credit Risk	The Scheme will invest in Government securities. Thus, this risk is mitigated.

Requirement of minimum investors in the Scheme

The Scheme shall have a minimum of 20 investors and no single investor shall account for more than 25% of the corpus of the Scheme. However, if such limit is breached during the NFO of the Scheme, the Fund will endeavor to ensure that within a period of three months or the end of the succeeding calendar quarter from the close of the NFO of the Scheme, whichever is earlier, the Scheme complies with these two conditions. In case the Scheme does not have a minimum of 20 investors in the stipulated period, the provisions of Regulation 39(2)(c) of the SEBI (MF) Regulations would become applicable automatically without any reference from SEBI and accordingly the Scheme shall be wound up and the Units would be redeemed at applicable NAV. The two conditions mentioned above shall also be complied within each subsequent calendar quarter thereafter, on an average basis, as specified by SEBI. If there is a breach of 25% limit by any investor over the quarter, a rebalancing period of one month would be allowed and thereafter the investor who is in breach of the rule shall be given 15 days' notice to redeem his exposure over 25% limit. Failure on the part of the said investor to redeem his exposure over 25% limit within the aforesaid 15 days would lead to automatic redemption by the Mutual Fund on the applicable Net Asset Value on the 15th day of the notice period. The Fund shall adhere to the requirements prescribed by SEBI from time to time in this regard.

Requirement of minimum assets under management in the Scheme

Pursuant to provisions of SEBI circular no. Cir/ IMD/ DF/ 15 /2014 dated June 20, 2014 read with SEBI Circular dated May 23, 2022, Scheme is required to maintain an Average Assets under Management (AUM) of Rs. 10 Crores on half yearly rolling basis. If average AUM of the Scheme on half yearly rolling basis is below Rs. 10 Crores, the AMC will scale up the AUM of the Scheme within a period of six months so as to comply with the requirements of Average AUM of Rs. 10 Crores on half yearly rolling basis, failing which the provisions of Regulation 39(2) (c) of the Regulations would become applicable. Accordingly, the Scheme would be wound up and the Unit under the Scheme would be redeemed at applicable NAV. The Fund shall adhere to the requirements prescribed by SEBI from time to time in this regard.

Plans / Options

The Scheme offers a separate Plan for investments directly with the Fund (i.e. application not routed through Distributor).

Thus, the Scheme offers two Plans as follows:

- Regular Plan
- Direct Plan

Each of the above Plans under the Scheme offers following options:

- Growth
- Payout of Income Distribution cum capital withdrawal option ('IDCW Payout')

Direct Plan will have a lower expense ratio excluding distribution expenses, commission for distribution of Units etc. Direct Plan is only for investors who purchase / subscribe Units directly with the Fund (i.e. application not routed through Distributor). Investments under Direct Plan can be made through various modes offered by the Fund for investing directly with the Fund (except Stock Exchange Platform(s) and all other Platform(s) where investors' applications for subscription of units are routed through Distributors). Further Registered Investment Advisors (RIAs) can also purchase units of Direct Plan on behalf of their clients through NMF-II platform of National Stock Exchange of India Ltd. and/or BSE StAR MF System of BSE Ltd.

The portfolio of Direct Plan will form part of portfolio of the Scheme and there will be no separate portfolio for Direct Plan. Further, the options i.e. Growth and IDCW will have common portfolio under the Scheme.

Growth option

IDCW will not be declared under this option. The income attributable to Units under this option will continue to remain invested in the respective plans and will be reflected in the Net Asset Value of Units under this option.

IDCW option

Under this option, IDCW will be declared (subject to deduction of tax at source, if any) at the discretion of the Trustees, subject to availability of distributable surplus calculated in accordance with SEBI (MF) Regulations. The amounts can be distributed out of investors capital (Equalization Reserve) which is part of sale price that represents realized gains. On payment of IDCW, the NAV of the Units under IDCW option will fall to the extent of the IDCW payout and applicable statutory levies, if any.

It must be distinctly understood that the actual declaration of IDCW and frequency thereof is at the sole discretion of Board of Trustee. There is no assurance or guarantee to the Unit holders as to the rate of IDCW distribution nor that will the IDCW be paid regularly.

Payout of Income Distribution cum capital withdrawal option ('IDCW Payout')

Under this facility, IDCW declared, if any, will be paid (net of TDS and statutory levy, if any) to those Unit holders, whose names appear in the register of Unit holders on the notified record date.

If IDCW payable under IDCW Payout option is equal to or less than Rs. 100/-, then the IDCW would be compulsorily reinvested in the option of the Scheme.

Transaction Charges

In terms of SEBI circular no. IMD/ DF/ 13/ 2011 dated August 22, 2011, a transaction charge, as follows, is payable to distributors who have opted to receive transaction charge*:

- i. For existing investor in a Mutual Fund: Rs. 100/- per subscription of Rs. 10,000/- and above;
- ii. For first time investor in Mutual Funds: Rs. 150/- per subscription of Rs. 10,000/- and above.

*Distributors shall also have the option to either opt in or opt out of levying transaction charge based on type of the product subject to availability of proper systems in place.

In case of investment through systematic investment plan (SIPs), the transaction charge shall be applicable only if the total commitment through SIP (i.e. amount of each SIP installment X total number of SIP installments) amounts to Rs. 10,000/- and above. In such cases, the transaction charge shall be recovered in 3-4 installments, as may be decided by the AMC.

However, there will be no transaction charge on:

- i. Subscription of less than Rs. 10,000/-; or

Stamp duty

Pursuant to Part I of Chapter IV of Notification dated February 21, 2019 issued by Legislative Department, Ministry of Law and Justice, Government of India on the Finance Act, 2019 read with subsequent Notification No. S.O. 1226 (E) and G.S.R. 226(E) dated March 30, 2020 issued by Department of Revenue, Ministry of Finance, Government of India, a stamp duty @ 0.005% of the Transaction Value will be levied on applicable mutual fund transactions i.e. purchases (including switch-in, IDCW reinvestment etc.). Accordingly, pursuant to levy of stamp duty, the number of units allotted on purchase, switch-in, installment of Systematic Investment Plan, Systematic Transfer Plan and reinvestment of IDCW to the unitholders will be lower to that extent. The stamp duty will be arrived at using inclusive method of calculation.

For applying stamp duty, Transaction Value will be calculated after deducting transaction charges and such other charges as may be applicable from time to time. The calculation of stamp duty is explained as follows:

If an investor subscribes units for Rs.1,00,000/- through a distributor and transaction charges payable to distributor are Rs.100/-, then stamp duty will be calculated as follows:

Transaction Value = Subscription Amount - Transaction Charges (i.e. 1,00,000-100) = 99,900/-

Stamp Duty = (Transaction Value / 100.005) * 0.005

= (99,900/100.005) * 0.005

= 4.99

Accordingly, the amount of stamp duty of Rs. 4.99 will be deducted from the transaction value and for the balance amount, units will be allotted at applicable NAV.
