RISKOMETER

Key Features

- Market cap diversification
The fund invests across market capitalisation and is better placed to exploit market opportunities across large, mid and small cap companies
- Unwavering focus on the long term and willingness to back high conviction bets across markets caps and across market conditions
- Emphasis on generating consistent performance over long periods (Past performance may or may not be sustained in future. Please refer next page for performance details.)
- Flexibility to Fund Manager
The Fund Manager has the flexibility to select stocks based on prevailing market conditions and valuations

Presenting Invesco India Multicap Fund

Equity stocks are broadly classified into large caps, mid - caps and small caps. While large - caps are leaders across businesses, being more stable and resilient in tough economic periods; mid - caps are high growth companies with potential to be tomorrow's large - caps and small caps offer potential to scale, niche businesses.

Investment Strategy & Portfolio Construction Guidelines

- The fund adopts a diversified approach and invests across large, mid and small cap companies
- Emphasis on bottom up approach to select stocks across the market capitalization range with focus on long term growth with no sector bias
- While retaining its flexibility, the fund maintains exposure in the range
 - Large cap companies : 30% - 50%
 - Midcap & Smallcap companies : 50% - 70%
- The fund will hold around 30-50 stocks

The above mentioned fund universe, portfolio, stock selection, sector allocation and asset allocation are based on our current views & market conditions and are subject to change from time to time.

As per SEBI circular dated October 6, 2017 largecap companies means 1st - 100th company in terms of full market cap, midcap companies means 101st - 250th company in terms of full market cap and smallcap companies means 251st company onwards in terms of full market cap.
