CD: Certificate of deposits, CP: Commercial papers, PFI: Private Financial Institutions, HFC: Housing Finance Companies, NBFC: Non Banking financial corporations, PSU: Public Sector Undertaking, PTC: Pass Through Certificates, SDL: State Development Loans. YTM : Yield to maturity should not be construed as minimum return offered by Scheme. <sup>1</sup>Macaulay duration of a bond is the number of years taken to recover the initial investment of a bond. It is calculated as the weighted average number of years to receive the cash flow wherein the present value of respective cash flows is multiplied with the time to that respective cash flows. The total of such values is divided by the price of the security to arrive at the duration. **Note:** The price and yield on various debt instruments fluctuate from time to time depending upon the macro economic situation, inflation rate, overall liquidity position, foreign exchange scenario etc. Also, the price and yield vary according to maturity profile, credit risk etc.

- investments in AA+ and above rated corporate bonds

\* Investors should consult their financial advisers if in doubt about whether the product is suitable for them

<sup>^</sup>Macaulay duration of a bond is the number of years taken to recover the initial investment of a bond. It is calculated as the weighted average number of years to receive the cash flow wherein the present value of respective cash flows is multiplied with the time to that respective cash flows. The total of such values is divided by the price of the security to arrive at the duration
