As per AMFI  
Tier 1 Benchmark i.e.  
**Nifty India  
Manufacturing TRI**

# Manufacturing:

## India's pivotal driver for economic growth

India, one of the world's fastest-growing economies, is gearing for 2.5x growth over next decade to reach ~US\$ 9 trillion by 2034<sup>1</sup>.

The global need to diversify supply chains and find new manufacturing hubs has opened up a window of opportunity for India to capitalize on. With India's rising competitiveness, global giants like Apple, Samsung, Foxconn, Xiaomi etc., have already shifted their manufacturing base to India.

At the same time, India is witnessing strong domestic demand and is one of the fastest growing consumer markets. Realizing this, the Government is focused on building self-reliance by boosting domestic manufacturing with initiatives like 'Make in India', Production Linked Incentives (PLI) etc.

And supported by favourable demographic dividend, Government policy impetus, emphasis on R & D, innovation, capex-led growth etc., the sector presents a timely opportunity to benefit from its growth potential.

**Disclaimer:** The Scheme may or may not hold the stocks directly in its portfolio but would invest in stocks with manufacturing theme. It should not be construed as recommendations, advice to buy, sell or transact in any manner in these stocks / companies neither should it be considered as Research Report from Invesco Asset Management (India) Private Limited and/or Invesco Mutual Fund. The information provided herein may include statements/data of future expectations that are based on current views and assumptions and involves known and unknown risks and uncertainties that could cause actual results, performance or events to differ materially from those expressed or implied.

## What makes India a preferred manufacturing destination?

### Opportunity is Big!

Strong domestic demand & one of the fastest growing consumer markets

Economies of scale due to volume growth across segments

Export potential

### Competitive Advantage

Labour & Energy – Low cost labour pool & competitive energy costs

Land – Ease of land acquisition

Improving access to Capital

Entrepreneurship - Large pool of entrepreneur talent

### Government initiatives & reforms

Measures to enhance project viability through PLI<sup>2</sup>, Government subsidies, low corporate tax rates etc.

Measures to boost productivity by developing infrastructure

Measures to increase Total Addressable Market through trade agreements

<sup>2</sup>PLI – Production Linked Incentives

## Invesco India Manufacturing Fund: Ride the manufacturing wave

The fund aims to invest in manufacturing and allied businesses to capitalize on Government's focus on manufacturing and making India a Global manufacturing hub.

## Investment Framework & Strategy

- The fund will invest across market capitalization with an aim to have a well-diversified portfolio.
- Preference for companies which;

Have **tailwinds** such as fast-growing demand, reduced input costs, or are beneficiaries of favourable Government policies like PLI.

Globally competitive which can capture rising Indian demand, reduce import dependency and have potential to meet export demand.

Have **technological prowess** to remain relevant and/or future ready for adapting to changing consumer trends.
